SAN ANTONIO RIVER AUTHORITY TO HOST REGULAR BOARD MEETING IN WILSON COUNTY

Members of the public are invited to attend meeting at SPJST Hall Floresville.

Wilson County, TX – The San Antonio River Authority will hold their regular monthly board meeting in Wilson County on Wednesday, September 19, 2018 at 1:30 p.m. Members of the public are invited to attend the meeting, which will be held at the SPJST Hall Floresville located at 1156 FM 1303, Floresville, Texas. During the meeting, River Authority staff will present an overview of current activities in Wilson, Karnes and Goliad counties.

The River Authority is committed to safe, clean and enjoyable creeks and rivers. The River Authority invites you to come learn about the projects and programs that are occurring in the San Antonio River watershed. The River Authority works closely with local government officials in Wilson, Karnes and Goliad counties on a number of projects and initiatives including annual household hazardous waste collection events that help keep items like medications, used tires and electronics from being disposed in our waterways. The River Authority's Environmental Science staff services several sites throughout the river basin to conduct water quality and environmental monitoring as well as pollution investigations in an effort to keep the river clean, safe and enjoyable.

"I look forward to the opportunity to engage with our local leaders and private citizens to share how the River Authority is serving their communities and how they can help support our mission," said Board Chairman, Darrell T. Brownlow, Ph.D. "We invite you to join us on September 19th to meet your county board representatives and to learn more about these projects and efforts."

This meeting is an opportunity for community members to see the River Authority in action and to learn more about the ways the River Authority is carrying out its mission. For more information about the River Authority, visit www.sara-tx.org.

###

The San Antonio River Authority was created by the 45th Texas Legislature on May 5, 1937 and reorganized in 1961 to plan, manage and implement water-related programs and projects within the San Antonio River Basin. The State of Texas empowered the River Authority to preserve, protect and manage the resources and the ecology of the San Antonio River and its tributaries.
